

Take Care of Our Earth

Words and Music by Cathy Stamegna

Now is the time to put aside our diff'rences,
Now is the time to stand as one.
For we are stewards of this land,
(*Stewards to act to heal our world,*)
And shall preserve what we've have been handed,
All nations work together; it can be done.

Take care of our earth,
Take care of our earth,
Now is the time to fight for a rebirth, (*repeat*)

We are begging, pleading, calling out.
To save our future, and our voices will be heard, be heard.

Now is the time to put aside our diff'rences,
Now is the time to stand as one.
Take care of our earth,
Take care of our earth,
Now is the time to fight for a rebirth,
Take care of our earth,
Take care of our earth,
Our voices will be heard.
